**RSL Cabs**

Location:

**Mascot, Australia**

Ease of Use: ★★★★★

Functionality: ★★★★★

Product Quality: ★★★★★

Customer Support: ★★★★★

Value for Money: ★★★★★

Likelihood to Recommend: ★★★★★

**Comments:**

I would recommend ERP because they have great customer service, its user friendly and very reasonably priced! I am always able to call and get real time support, and if I leave a message they always call back promptly. They usually solve my problems right away, but if they do need to get back to me it's generally within 1-2 days. If its regarding an addition to the software, the longest we have waited is 1-2 weeks.

**Pros:**

It is a very self-explanatory software.

**Cons:**

I can't really find any issues with it.

**Recommendations:**

I have worked with 25-30 different softwares, so I know that this is very user friendly. You just have to know your needs from the software depending on your industry.
